PHOENIX VOYAGE INTERNATIONAL

About Phoenix Voyage:

Phoenix Voyage is an educational multi-media production company, informational resource center, and collective of action-based program developers. We help to promote and showcase businesses and organizations focused on the introduction and implementation of technologies and products beneficial to life in all its glorious diversity.

Phoenix Voyage Mission:

The purpose for which Phoenix Voyage was formed is to teach, motivate, and inspire communities around the world to have a greater understanding of the present environmental sustainability issues and to implement solutions for a healthier environment and physical well-being.

Our Goals and Objectives:

To help develop educational environments and tools offered to communities in need around the world to learn and thrive.

To clean the environment of hazardous and other types of pollutants that have destroyed, or made unusable, geographic regions worldwide due to lack of available technologies, resources, management and knowledge.

To provide solutions for the global hunger issue.

Current Projects:

In order to achieve the objectives of Phoenix Voyage, there have been several programs to make a difference in the lives that they touch. It is no secret that humanity is in need of more support than currently given: the need to not only support, but to also educate society to be self-sustaining — it's imperative.

BLUEPRINTS FOR PROGRESS

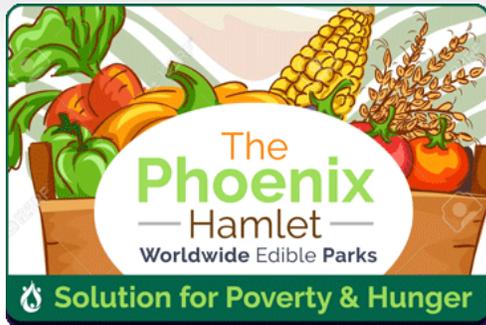

The projects that Phoenix Voyage have developed address multiple issues such as: relieving poverty & hunger, empowering women, environmental remediation, community teaching and training facilities and many creative educational multimedia projects that will empower the youth around the world to make conscious decisions for the future of humankind, honoring living creatures and learning about sustainable practices for creating a healthy environment .

We invite you to join us on a voyage for positive change! If you cannot financially support our efforts, please do share our work with your family, friends and social networks...together we can change the world.

Learn more about how you can use your talents to help support these exciting projects.

HUMANITARIAN PROJECTS

PHOENIX HAMLET EDIBLE PARKS

Install thousands of edible parks around the world for community members to visit and taste freshly picked fruits, nuts, vegetables and berries while they enjoy time in nature!

A Phoenix Hamlet can be any size and can be designed for future expansion. Choose fruit trees, berry bushes, herbs and spices that will thrive in your climate zone.

The Phoenix Hamlet edible park initiative has been developed to form a network of parks around the world to

1. Exchange seeds
2. Coordinate fun global events like contests and treasure hunts and
3. Share ideas for school activities and experiential education programs

Financial and office support is needed:

1. Office support for helping to spread this project
2. Sponsoring seeds and educational signage for grassroots hamlets
3. 50 euro donation & up.

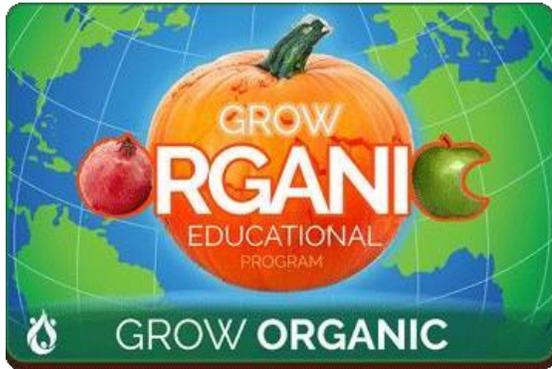

FEED A WHOLE COMMUNITY CAMPAIGN

Phoenix Voyage is addressing the global hunger issue with easy to maintain food systems.

1. Introducing state-of-the-art aquaponics and aquaculture systems which bring an abundance of food.
2. Supplying a community of 300+ people year round with organic, non-GMO food supply.
3. Included is an educational program, teaching about vitamins and minerals in foods.

GROW ORGANIC EDUCATIONAL PROGRAM

FREE educational program teaching students all about growing organic edible crops.

This 4 week program comes with a teachers' guide including fun activities for each week to assist keeping students enthused and engaged.

Perfect for ages 7-10

PHOENIX CENTERS INTERNATIONAL

The Phoenix Centers are turn-key resource and coaching facilities which can be placed anywhere in the world!

They incorporate the creative expression and cultural uniqueness inherent to each community via: Food growth systems, experiential education, extracurricular programs, business development, healthcare, art projects, energy systems and community expansion options. 100% off-grid and 100% sustainable.

Each Phoenix Center operates with a decision-making governance method that allows an organization to manage itself efficiently while incorporating the wisdom of every member.

This initiative: creates jobs, reduces poverty, builds community infrastructure, establishes new businesses and improves quality of life.

PHOENIX PEARLS PROJECT

The Phoenix Pearls Project is a dynamic economic support program for women. It involves the provision of giving goats, cows, pigs and chickens to impoverished rural women around the world who are members of NGO's partnering with Phoenix Voyage. This program literally changes the lives of not only women, but entire communities.

These animal "pearls" are precious life changing gifts as they act as a catalyst to transform a woman's life. The animals are their cherished jewels.

Support needed: Office outreach, fundraising programs and management.

Donations: Many of our partner NGO's would love to provide for women to their community.

Cost: 25 euros for pigs up to 2500 euros for a cow

GLOBAL RELIEF PROJECT

The GROW YOUR OWN global relief project impacts a family in need of food and nutrition. Included in each kit:

1. Eco-friendly Greenhouse (300cm x 200cm).
2. 25 Organic/NON-GMO seed packets. This is more than enough seeds to take care of 3 years of planting.
3. 23-page booklet including tips about each veggie/herb/fruit which serves as a guide to sowing and growing the seeds & more!

Sponsorship: 3500 euros for 100 kits/country impacting 100 families.

GLOBAL REMEDIATION

OPERATION: EARTH CLEANUP

Operation: Earth CleanUp (OECU) is a very important action initiative to clean up pollutants and toxic damage that has been done to our world. This destruction is not acceptable or excusable and must be countered with *awareness, integrity and action*.

During the past few decades, Organizations, Schools and Groups have been working to clean up our environment, but if more people join in, we can help to reverse the damage that has been done. There are many ways to accomplish this and Phoenix Voyage has launched **Operation: Earth CleanUp**, a 3-phase action plan to join in the fight to restore our beautiful earth.

1. Assess each country's environmental pollution issues
2. Develop an action plan & budget
3. Deploy the technologies and get the job done

DO YOU BELIEVE
THAT WE HAVE THE BEST
CUTTING-EDGE INFORMATION
AND TECHNOLOGIES TO CLEAN UP
THE TOXINS ON OUR EARTH?
YOU BETCHA WE DO!

A happy and healthy planet gives abundantly!

Rural School Development Program

In many communities around the world, children are being short changed on a chance for an education to thrive in life. The Phoenix Voyage team has been working with a local school in Uganda for the past few years as a pilot project and the results are astounding!

Situation we understood: *“There are several schools in the community, however care takers of these orphans can't afford to pay the local school fee... most people here can't even afford a meal a day. This school is a model of change to give these children an education, rather than leave them isolated.”*

Solutions we implemented: Fundraising efforts and successful programs implemented achieving rewarding results for all involved.

- Creation of School Mascot and signs
- Shoes and uniforms for students
- School desks
- Compost toilets
- Introduced Grow Organic program
- Organic seed sponsorship
- Started School Phoenix Hamlet
- Sponsorship for bus and lunch for field trips
- Donations of puzzles, balls, stickers, school decorations and many more goodies

We now know this cost effective formula works and would love to continue helping rural schools around the world!

TECHNOLOGIES AND TECH DEVELOPMENT

Affordable Housing

Packed Housing
Collapsible "pop-up" housing
Multiple Advanced and Renewable Building materials

Health

Advanced Allergy Detection
Oxygen delivery technology
Antibacterial (no antibiotics) cleaning materials
Antibacterial Masks
Green bio solutions for anti-microbial antifungal action via aerosol

Sustainable Infrastructure

Concrete/Cement Remediation
Advanced Concrete Technologies
Volatile Corrosive Inhibitor Paint Technology
Fly Ash Remediation
Factory Emission Waste Inhibitor
3-D printing
Advancing Cooling and HVAC technology
Multiple Data Center Technologies

We trust this short list of available technologies will spark interest and potential commitment to join our effort and make a difference for our Humanity.

Through partner relationships, Phoenix Voyage has over 140 separate technologies in the areas of Water, Energy, Agriculture, Sustainable Infrastructure, Affordable Housing, Health and Education, and other sectors.

Water

We have 21 different water technologies. In short, there is no water we cannot treat. The scale ranges from household to municipal, and applications include sewage treatment, municipal water, river/lake remediation, food processing, desalination, aquaculture, aquaponics, and more.

Energy

Hybrid Energy Storage
Energy Storage solutions (for solar, wind, microgrids and interfaces)
Transformer Remediation
Grid monitoring and management
Advanced hydropower Colocatable
Anaerobic Digestion Advanced Biofuel
and Ethanol production LED lighting
(everything you can imagine) Coal Slurry
Recovery
Heat Waste Energy conversion
Ambient energy electricity conversion

Ag (Food/Farming)

Soil Nutrient Technologies
Animal Waste Conversion
Indoor Farming
Aquaponics
Inland ranked aquaculture
Hybrid plant growth for Energy Production
Alternative Animal Treatments (no antibiotics)
Food processing, packaging and shipping technologies
Non-thermal pasteurization

The Phoenix Voyage Technology Development Team is ready for action with four projects identified to help advance our world and alleviate the suffering of many around the world.

SUPPORTING THE ARTS

PV ART PORTAL: ACTIVATE YOUR INNER CREATIVITY

FREE SHOWCASE FOR ARTISTS ~ FIND TALENT FOR PROJECTS

The PV Art Portal platform is a FREE artists' showcase in all mediums and for both buyers and sellers to network from.

Art cultivates wonder that shapes science, ethics and social interaction ~ thus gestating the responsible and wise growth of community.

Support is always needed for:

1. Sponsor fund raising events
2. Donation of art supplies for schools
3. Support office staff

FREEBIES - AVAILABLE GRANTS FOR THE ARTS - ARTS AND CRAFTS - INFORMATIVE BLOG AND MORE!

EDUTAINMENT

Phoenix Voyage has 9 incredibly talented mascots and each has a special focus... from science to organic farming to natural healing. The mascots are featured on the PV website, and in our first introduction eBook: 'Meet the Mascots'.

In development is a series of books for beginner readers called 'Voyage with Us' featuring the PV mascots travelling to different countries. During the voyage, the beginner reader will learn about geography, local flora and fauna as well as the traditional culture from that region. Total of 45 books in this series.

Production cost: 750 euros per book

Book donations: Cost is approximately 5 euros per book

PV COMIX

"The fate of empires depends on the education of youth." – Aristotle

This multi-media project is an exciting collection of comic books for all ages.

Introducing great inventors, historic figures, and present day enigmas, focusing on natural healing, geography and cultural uniqueness in order to stimulate the imagination of the reader.

The Phoenix Voyage creative team has a total of 10 inspiring projects on the table! Six of the productions have started to be developed and two have been publicly launched... but we could use more support:

Production costs:

Comic books - 500 euros per episode

Graphic novels - 3500 euros per graphic novel

Donations - We would love to have our comic books donated to children in need around the world! Cost TBD.

VASARI'S VIEWPOINT

"Vasari's Viewpoint," a highly entertaining series that showcases many of our favorite as well as unknown historical figures throughout time with episode one focusing on well-known and reputable artist with the first episode featuring Leonardo DaVinci!

We have also created videos for each episode with Italian Renaissance music playing while you read, "Vasari's Viewpoint" is a highly entertaining and informative series that will leave you wanting more... and more is on the way!

AFRIKAN QUEST

Discover the true history of Africa and learn of its many contributions to society and the world in general. From the Iron Age on, Africa has played a vital role in helping the world grow. Journey along with our hero as he seeks to find those truths and set them free.

In Afrikan Quest, you'll get to meet Dayo and join him on his quest as he seeks to unearth the ancient monoliths and uncover the secrets of Africa. On his first quest, he meets an ancient phoenix bird and from there, who knows where his adventures may lead him?

PHOENIX VOYAGERS

Journey through time with three phoenix birds on a mission... they are called the 'Phoenix Voyagers'. The story begins in 1665 at Isaac Newtown's farmhouse in England and takes us on a global quest around the world, spiriting us to the present day.

This graphic novel trilogy is about discovery, ancient history, archaeology, world explorers, inventors, inventions, wisdom teachers, adventure and so much more!

ANIMATION SERIES

This project includes a comic book series as well as an animation series with an interactive website designed as a global reforestation program creating a vehicle for kids to make a "real time" impact on the environment as well as a direct solution for global warming.

Show Premise: Tree Tops is a half hour animation taking the viewer on a global travel experience which educates about the wonders of nature with a strong emphasis on a moral lesson in each episode.

Summary: Sophie Bird and Firefly are best of friends and have decided to travel the world. The main thing they do is find out about the flora and fauna and their favorite thing to do is to climb to the top on the highest tree in that region. They take snapshots along the way to educate the viewer. The show is light and fun and the audience learns about the world and the abundance that Nature has to offer. Ages 3-8

Animation Series (6 episodes), game development & website: 850k euros

TESLA'S FORCE

Phoenix Voyage is proud to present Tesla's Force, produced in a graphic novel format. Introducing Nikola Tesla, one of the most brilliant humanitarians in the history of mankind. The graphic novel includes influential people who Tesla was introduced to, news regarding inventions of the time and world events at the turn of the 20th century.

INDIGO AND ASH

PV Comix is thrilled to develop a comic book series exploring the amazing healing power that Nature produces. Indigo and Ash are a husband and wife team who have been gathering herbs, tonics, teas, essential oils and more for over a hundred years. Learn about the many ways Nature works in harmony with humanity.

Belonging to the elf kingdom, Indigo and Ash are famous throughout the world for their knowledge and massive collection of healing remedies. Together, they share their knowledge producing an online educational show. The word is getting out and others in the elf kingdom add to the collection by bringing them natural remedies from all around the world.

KNOWLEDGE IS POWER CAMPAIGN

PURSUIT OF TRUTH: SCAVENGER HUNT

The Phoenix Voyage Team launched a highly addictive scavenger hunt game - The Pursuit of Truth, to please the most inquiring minds, who are eager for self-development and fond of challenging tasks.

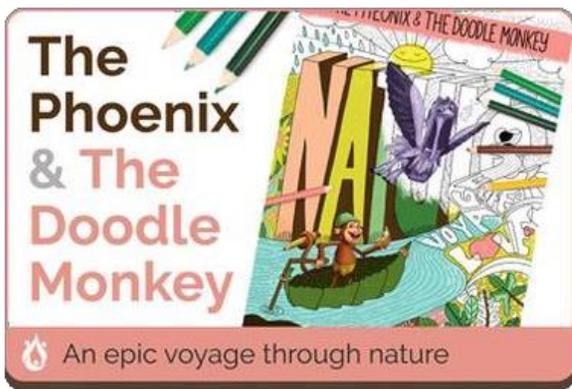

In the course of the journey, the player will not only learn to think outside the box, but also how to relax, improve creativity and maintain a good mood.

The remarkable selection of assignment types includes informative and extremely compelling quizzes, puzzles and cryptograms to all tastes! Watch videos, read articles, explore, enjoy and have fun! Participation in the game is completely free.

COLORING BOOKS

PHOENIX AND THE DOODLE MONKEY

The Phoenix and The Doodle Monkey have been on an epic voyage through nature, to discover inspiring quotes for a better world, and bring them to you to enjoy and color. Phoenix Voyage is an educational multi-media production company, informational resource center, and collective of action-based program developers dedicated to educating people on how to preserve and look after our beautiful world. Through education and positive steps, we can join together and heal the gaping wounds that have been inflicted on our world. We invite you to join us on a voyage for positive change. The Doodle Monkey is on a personal mission to create 1000 crazy doodle colouring books to bring about awareness and a changes in attitudes about mental health within our society. Through the creation of unique illustrations he is determined to use creativity to help others. Join him on his unique journey.

ENDANGERED SPECIES COLORING BOOK

Color, create, and at the same time learn about the endangered species of our planet. This coloring book will help both adults and children to spend time wonderfully and beneficially. You will meet the cute Giant Panda, graceful Saola, elegant Amur Leopard and many other astonishing creatures.

The world of nature will appear before your eyes in all its multicolored diversity! Start your journey into the world of creativity and art and feel the healing power of nature in the Endangered Species coloring book!

GAMES

PARAGONS

Phoenix Voyage: Paragons is a cooperative dice rolling game for 2 to 6 players. Crises are wreaking havoc throughout the world, and only alliances and teamwork can solve these issues. Will your team rise up to solve these issues and become the world's Paragons?

CARD GAME

The Phoenix Voyagers are here to help the world, working together gathering resources to address issues plaguing communities around the world. These issues can only be solved by putting together an able team of Voyagers and have them ready for action.

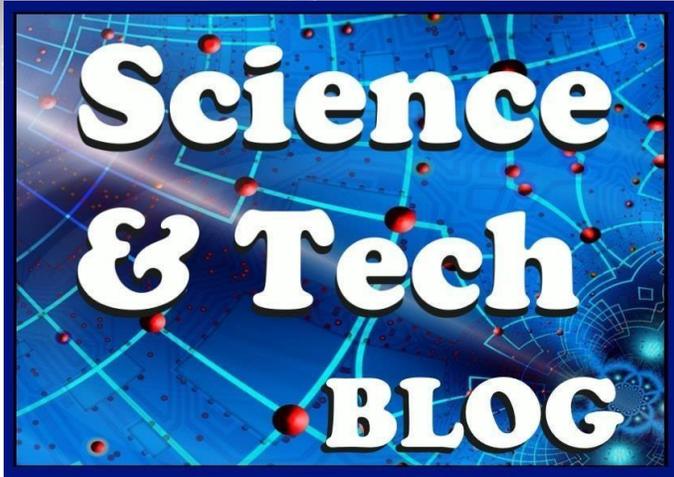

PHOENIX SPIRIT CARDS

The Phoenix Spirit Cards are designed with beautiful original artwork depicting a unique phoenix bird on each card. From Compassion to Kindness, there are 30 cards to choose from containing messages that inspire your days to be fulfilling and rewarding.
